EDUCATION

BFA in Digital Art and Animation
DigiPen Institute of Technology
(2021)

UX/UI INTERN

Allovus (Summer 2017)

- Worked closely with mentors to modernize and digitize an existing program
- Created mood boards for the look and feel of the app that would appeal to the target demographic
- Created wireframes to draft the flow and accessibility of the app
- Created and iterated on polished sample UI designs in Illustrator
- Presented process and mock-ups to Allovus

UNTIL YOU WAKE

Art Director, UI Artist (Team of 16)

DigiPen (Fall 2019 - Fall 2020)

- Created UI assets within Photoshop
- Animated UI assets within After Effects to add polish to the UI in the style of the game
- Worked within Unity to implement UI assets
- Created intro cinematic illustrations for the game and game trailer
- Worked on concepts to help lead the vision of the game
- Provided feedback to the team of artists to keep the art in line with the game's style
- Kept communication going between the team while working from home for the last part of production

CUBIC CURRENCY

UI Artist, Background Artist (Team of 4)

(Summer 2020)

- Collaborated with game designers to redesign the original UI
- Created stylized pixel art UI assets within Aseprite
- Wrote sets of instructions for game designers detailing animations, font colors, etc., for the ease of implementation
- Created stylized pixel art background assets within Aseprite to assist with immersion and add personality to the game
- Worked within Github to transfer assets
- Published Cubic Currency on Steam
